** Service providers are not being recommended or endorsed but are merely several that tenants have successfully utilized in the building **

Phone/Internet Service and Installation Process: 1) Choose Provider (AT&T, Cogent, Cox, Level 3), 2) Contact Summit Riser to bring lines from Minimum Point of Entry (MPOE) to back board within tenant space and 3) Have cabling vendor distribute lines throughout tenant space.

NOTE: Summit Riser Systems (SRS) is the building's exclusive riser management vendor partner. Starting from the Minimum Point of Entry (MPOE) through the common area hallways to the demarcation point (DMARC, plywood backboard or Server Room) within the tenant's suite, SRS will execute all riser or feed cable installations, facilitate all cross connects and perform all testing within the building's riser system. These services will be provided to you by SRS in a courteous and expeditious manner at competitive rates. For a more information on the SRS Riser Management program go to: www.summitrisersystems.com. Call Toll Free at (866) 778-6648. Email: info@summitrisersystems.com
